TECHNICAL DATA SHEET

Universal Cleaning Cloth

Impregnated cleaning cloth for universal cleaning of surfaces, objects or hands.

Technical data

Product line	Clean Line
Industries	Industry, trade, automotive, operations
Composition	< 5 % non-ionic surfactants
Pack	Bucket with roll, individually perforated cloths
Shelf life	30 months unopened, 12 months after opening
Properties	Solvent-free, label-free
Raw materials	Largely renewable, from Central Europe
Storage	Cool, dark and dry

Properties and benefits

- **Strong cleaning power** – Effectively removes dirt, even stubborn and heavy soiling.
- **Gentle on skin and skin-friendly** – Solvent-free and label-free – ideal also for use on skin.
- **Versatile application** – For surfaces, hands and objects in industry, trade, workshops and maintenance.
- **Sustainable raw materials** – Ingredients largely from renewable raw materials and from Central Europe.
- **Easy to use** – Convenient dispensing from the bucket – individual perforated cloths.

Application

Open the bucket, remove the lid and pull out the first cloth from the middle of the roll through the opening in the lid. Close the lid. Pull the cloth upwards at an angle to the side. Tear the cloth off along the perforation. Use the cloth to clean the soiled surface until it is clean. Slight pressure accelerates the cleaning process. Please check compatibility with sensitive surfaces in an inconspicuous area. On glass surfaces, a light film may remain.

Composition

< 5 % non-ionic surfactants.

Storage and shelf life

Store the product in a cool, dry place, protected from direct sunlight. Keep separate from food and out of the reach of children and animals. When stored properly, the product is shelf-stable for 30 months when unopened and 12 months after opening.
